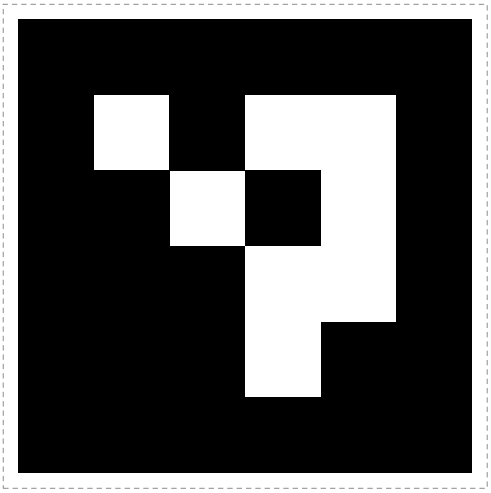
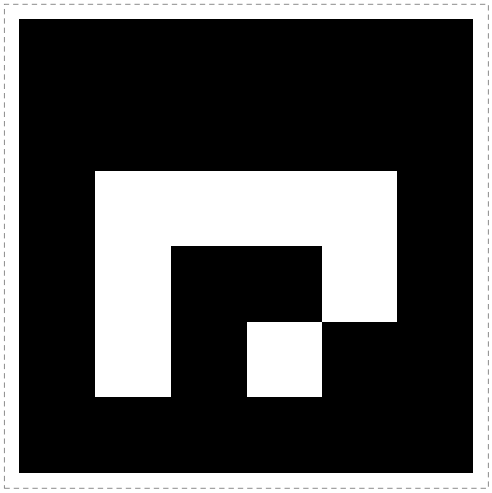
EgoUMI gripper ArUco markers - DICT_4X4_50, IDs 0-7 - FRONT

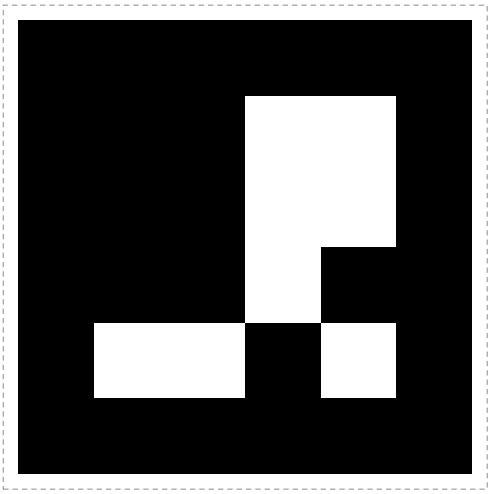
Print at 100 % (Actual size), double-sided, flip on the LONG edge. Cut along the dashed lines; the white border is part of the sticker (quiet zone) - do not trim it.



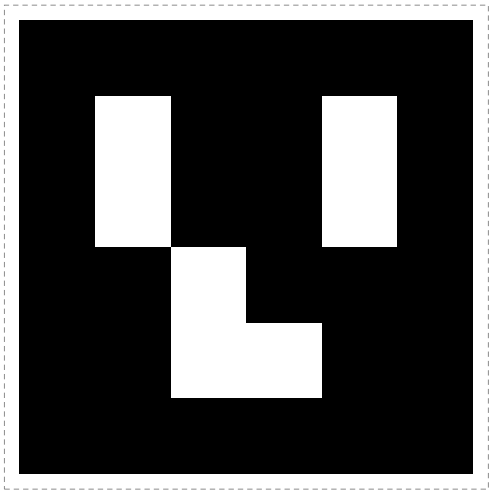
ID 0 - 60 mm marker, cut 64 mm - Cube - rear face (faces you)



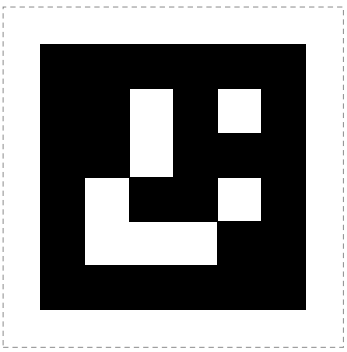
ID 1 - 60 mm marker, cut 64 mm - Cube - top face



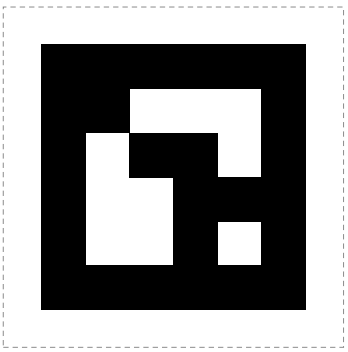
ID 2 - 60 mm marker, cut 64 mm - Cube - left face (thumb side)



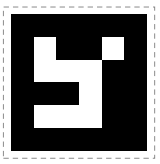
ID 3 - 60 mm marker, cut 64 mm - Cube - right face (index side)



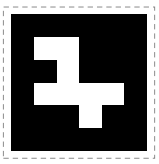
ID 4 - 35 mm marker, cut 45 mm - Top cover - left wing (thumb side), where the mirror was



ID 5 - 35 mm marker, cut 45 mm - Top cover - right wing (index side), where the mirror was



ID 6 - 18 mm marker, cut 20 mm - Left finger holder - top pad (thumb side)



ID 7 - 18 mm marker, cut 20 mm - Right finger holder - top pad (index side)

100 mm - if this bar is not exactly 100 mm, reprint at 100 % / Actual size

Generated from configs/gripper_markers.yaml by scripts/make_marker_sheet.py - sizes are the black squares; sticker = marker + white margin

BACK - where each marker goes (behind its marker when printed double-sided)

Left / right = holding the gripper in your right hand, fingers pointing away from you, GoPro on top. The arrow marks the marker's TOP edge.

TOP EDGE

ID 1

Cube - top face

top edge toward the fingers (front)

TOP EDGE

ID 0

Cube - rear face (faces you)

top edge toward the top of the cube

TOP EDGE
